SUMMARY

Senior Software Engineer with 3+ years of experience building AI-powered SaaS platforms, cross-platform mobile applications, and scalable backend systems. Proven track record in architecting multi-tenant platforms, designing real-time speech evaluation pipelines, and leading end-to-end product delivery from system design to production. Strong background in competitive programming with 2,000+ problems solved and ICPC Asia Dhaka Regional participation.

TECHNICAL SKILLS

Languages & Frameworks: Python · Django · Django REST Framework · FastAPI · Dart · Flutter · TypeScript · Next.js · React

Databases & Messaging: PostgreSQL · Redis · Celery · Celery Beat

AI & NLP: Speech Recognition · NLP Processing · LLM Integration · PyTorch · WhisperX · OpenAI API

Infrastructure & DevOps: Docker · Nginx · GCP · DigitalOcean · CI/CD · Prometheus · Grafana · Firebase · FCM · Firebase Analytics · Crashlytics

PROFESSIONAL EXPERIENCE

LII Lab

Sylhet, Bangladesh

Senior Software Engineer

01/2025 – Present

Led backend engineering for AI-powered English test platforms, OneIELTS and OnePTE, driving significant product development.

- Architected a secure **multi-tenant SaaS platform**, ensuring complete data isolation for diverse organizations.
- Designed a **QTI 3.0-compliant exam engine** supporting over **100 question types**.
- Developed an efficient **real-time speech evaluation pipeline**, processing spoken submissions end-to-end.
- Implemented a robust **multi-gateway payment infrastructure**, integrating with five service providers.
- Built a comprehensive **Studio API** for enhanced content authoring and KPI analytics.
- Mentored junior engineers with code reviews and technical walkthroughs, fostering skill development.

LII Lab

Sylhet, Bangladesh

Software Engineer

11/2022 – 12/2024

Full-stack ownership of OnePTE — cross-platform product development and Django backend creation.

- Full-stack ownership of **OnePTE**, leading design and deployment of a comprehensive Flutter app covering all four test modules.
- Engineered a task-group-based **mock test engine** with modular exam templates and **AI scoring backend** for exam submissions.
- Integrated subscription billing systems and built **Django admin and API** for efficient question bank management.
- Managed **93+ production releases** for both **Google Play Store** and **Apple App Store**, ensuring seamless user experiences.
- Authored and maintained extensive test suites, enhancing **CI/CD pipelines** across multiple platforms.

PROJECTS

Patty Bros — Restaurant Website

2025

- Built a **marketing and booking website** for a South East London restaurant with responsive animated pages and a serverless booking system.
- Integrated **Google Sheets-driven live menu** with Google Apps Script for serverless booking processing and Telegram Bot API for real-time owner notifications.

Stack: Next.js · TypeScript · Tailwind CSS · Framer Motion · Google Sheets API · Google Apps Script · Telegram Bot API

Projecto — University Course & Proposal Management System

10/2022 – 12/2022

- Built a **multi-role web application** (student, supervisor, admin) for managing university project proposals, submissions, and evaluations end-to-end.
- Implemented **AJAX-driven interactions** for dynamic form handling, real-time feedback, and automated Gmail notifications for proposal status updates and deadlines.
- Added **PDF and CSV export** for project reports and integrated a background job service for scheduled task operations.

Stack: Django · Python · PostgreSQL · AJAX · jQuery · Bootstrap

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

Solved **2,000+ problems** across online judges; participated in **300+ contests**.

Champion, LU CSE Carnival National Hackathon 2023 — Team: LU Ovream

Runner-up (Bangladesh), IEEEExtreme 16.0 (2022) — Global Rank 149, Team: LazySquad

ICPC: 87th / 1,700+ teams, Preliminary 2021; 51st, Dhaka Regional 2020

Champion, LU TechStorm 4 Programming Contest 2021

Codeforces (Max: **1603**) · CodeChef (Max: **1965**) · LightOJ

EDUCATION

Leading University

Sylhet, Bangladesh

B.Sc. in Computer Science and Engineering — GPA: **3.6 / 4.0**

09/2018 – 12/2022

VOLUNTEERING

IEEE Computer Society — LU Student Branch Chapter

Chair

04/2022 – 05/2023

- Helped establish the IEEE Computer Society Student Branch Chapter at LU from the ground up and launched key initiatives that shaped the chapter's technical identity and community presence.
- Organized and hosted seminars, webinars, and technical workshops featuring guest speakers from the local software industry and academic community.
- Guided chapter-wide community-building efforts through outreach programs that **grew membership by over 20%** within the first year.
- Planned and delivered hands-on technical learning programs including a multi-session **Flutter bootcamp** focused on cross-platform mobile development.
- Served as a problem setter and judge for inter-university and intra-university competitive programming contests.

Leading University Computer Club

ACM Coordinator

01/2022 – 12/2023

- Conducted regular peer-to-peer learning sessions on Data Structures and Algorithms, helping students build strong foundations for technical interviews and competitive programming.
- Mentored junior students in competitive programming strategies and online judge workflows across Codeforces, CodeChef, and LightOJ.
- Organized regular contest practice sessions to prepare members for ICPC and national competitions.
